

Whacky Wizards Presents:

The Three Rules of Boomwhacking

Rule #1 –

Boomwhackers only hit the playing surface.

Boomwhackers are to be played only on your desk if you are sitting at a desk or on the floor if you are sitting on the floor. They are NOT used to hit your own body, your classmate's body, or even your classmate's Boomwhackers. They are not swords. They are not for recreating epic lightsaber battles. They are musical instruments.

Rule #2 –

Boomwhackers NEVER touch your face.

If Boomwhackers touch your face, you can share germs with others. To protect yourself and others, remember that they are musical instruments, and they are NOT:

Trumpets – They don't touch your mouth and you don't blow through them.

Telescopes – They don't touch your eyes and you don't look through them.

Hearing Aids – They don't touch your ears and you don't listen through them.

Elephant Trunks – They don't touch your nose and you don't sniff through them.

Rule #3 –

Boomwhackers down means Boomwhackers DOWN.

Boomwhackers Down means putting them down flat in front of you on your desk or on the floor and taking your hands off of them. Don't try to keep your Boomwhackers standing up like towers, or stacking them in a big T. Don't put them on you lap or touch them. Boomwhackers down means no more sounds because it is time to LISTEN.
